DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1- 10, 11, 12, 21- 36, and 37- 42, drawn to a cell that expresses Cre in an FLP dependent manner (the first product) and a method of expressing Cre in a cell (the first method that goes with first product).

Group II, claim(s) 13- 15 and 43, drawn to drawn to a method of producing a viral vector (the second method).

Group III, claim(s) 16- 20 and 44, drawn to a DNA molecule (the second product).

The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Group I is directed to a cell and a method for producing Cre, which is the first product, and first method of using the product. The special technical feature is the cell producing Cre in an FLP dependent manner. Groups II, III are drawn to different prouct/method,

Application/Control Number: 09/807,223

Art Unit: 1648

which do not require each other for their practice and do not share the same or a corresponding technical feature. The Group II is drawn to a second method of use of the first product and Group III is a second product and does not share the special technical feature of Group I. Note that PCT Rule 13 does not provide for multiple products or methods within a single application. Since special technical feature of the Group II invention is not present in the Group I claims, unity of invention is lacking.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
